## Criteria 07- Institutional Values and Best Practices

### 7.2 Best Practices

Metric no	7.1 Institutional values and social responsibilities	Supporting data	Link/Page no.
7.2.1	Describe two best practices successfully implemented by the Institution as per NAAC format provided in the manual	Detailed write up and proof of success	1-29

*Principal*

## **Title of the practice: Education for All**

**Goal : Promotion of higher education:** The College strives towards promoting and achieving academic excellence and providing quality education to all specially to underprivileged groups.

**The context:** Higher education plays a key role in development of the society. It helps people to identify and sharpen their skills, Gather knowledge they need to succeed in their life. It also helps to prepare people for the workforce. Higher levels of education are correlated with higher levels of civic participation, including volunteer work, voting, and blood donation. Educated people have higher incomes, have more opportunities in their lives, and tend to be healthier. Societies with high rates of education are benefitted as well. They have lower crime, better overall health, and civic involvement. Higher education is necessary to develop critical thinking, social mobility, and developing required skills to face the challenges ahead. Seth Phoolchand Agrawal Smriti Mahavidyalaya has been set with a vision to provide quality education, professionalism and scientific loom to all sections of students including scheduled tribes, scheduled castes, other backward communities and religious minorities with special focus to female and underprivileged students

### **The Practice**

Efforts have been done to widen access to higher education to a wide range of rural community students from disadvantaged-community, women, minority-community and economically weaker sections of the society. It helps to create equality and access to higher education to its students.

- i. Adoption of a village:** With an aim to encourage higher education the College had adopted a nearby village named **Patewa** and every year around 20-30 student were enrolled for higher secondary education. Further to promote higher education the students who successfully complete the higher secondary school from this village are provided with free education in our college. Skill development workshops and training classes like stitching and computer education were also organized for the inhabitants of the village with a motive encourage self-reliant India. This initiative had brought positive results
- ii. Establishment of the Setu SahaytaKosh:-** In a continuous effort to support the education of the underprivileged the college initiated the formation of Setu Sahayta Kosh where we the members and the management along with other philanthropic people provide financial assistance to promote higher education for the student residing in the nearby villages who are unable to receive any financial help from any source. Through this scheme we have supported those students also who were unable to pay college fees due to demise of earning member of the family due to covid. Our college covers nearly 50 villages. The college promotion team visits the village and educates the students about the importance of higher education.
- iii. Fee waiver and Scholarships:** Efforts are being made to widen access to higher education to the rural community for the disadvantaged-community, women, minority-community and economically weaker sections of the society. It helps to create equity and access to higher education to its students. A wide range of subjects are run by the college so that students can choose the combination of subjects of their choice Fee charged is so minimal that economically weaker students can afford. A student securing 80% in 12th class is exempted

from paying any tuition fees and this exemption continues if he/she maintains a first division in latter classes. Student securing marks between 70% to 80% are given exemption of 30% in tuition fees. , this exemption continues if he/she maintains at least first division in latter classes. 50% concession is given if two students of same family are admitted • Scholarship cell have been setup which regularly monitors the available scholarship schemes offered by government and informs the students and further takes care for all other official processes

- iv. **Nirdhan Chatra Kalyan Yojna** : This Yojna has been set up for those aspiring students who are below the poverty level. An entrance exam is conducted and based on merit free education or complete fee waiver is provided to these students who qualify the entrance.
- v. A wide range of subjects are run by the college so that students can choose the combination of subjects of their choice
- vi. Scholarship cell have been setup which regularly monitors the available scholarship schemes offered by government and informs the students and further takes care for all other official processes.
- vii. Remedial Coaching Classes for slow learners.
- viii. Provision of girls hostel: A hostel for 100 inmates is provided for girls within the College premises.

#### **Evidence of Success:**

Table 1

##### 1. Evidence of Success:

Evidences of the success of the above s practice are:

Analysis: The Component share of SC, ST, OBC Students is nearly 80 percent or above during the last three years and the enrollment of students shows an increasing trend.

Table2

##### 2. Female Enrolment Trend:

Analysis: The enrolment of female students shows almost a steady trend. It is upward during the last

Two years. A slight decline is observed in 20-21 as government had set up a girls college with in area of 500 meters

##### 3. Information regarding Scholarships (Post Metric):

Analysis the number of students benefitted by the govt schemes is showing an increasing trend,although the amount sanctioned has decreased due to govt. policies.

Other scholarships availed by the students are Minority, central Inspire, Bidi shramik, Naw Nihal etc. Since these are applied individually by the student and college only forwards them as such no appropriate records are available with college.

#### 4. Problems Encountered and Resources Required:

Students with lower marks are admitted in order to fill up seats. As a result, undesirable poor results are observed sometimes. Due to low fees structure and no financial support from any other source we suffer from financial burden and sometimes are unable to retain good teachers

### **Best practice two**

#### 2. To inculcate human values and prepare students for future endeavors

**Goal:** To inculcate human values, train them for all round development and prepare them to become responsible self-sufficient citizens To achieve the vision and mission of the institution To build a healthy institutional work culture To promote the discipline of lifelong learning To enrich the cultural and intellectual life of the city To promote a sense of belonging together as learners and seekers towards becoming responsible citizens

**The Context:** Citizen is the building block of a society. The best investment we can make into creating a healthy and wholesome society is enriching citizens and refining public taste. The antidote to this widely lamented state of affairs is the cultivation or propagation of higher interests and tastes. Education can be a remedial intervention in this process. For long we have talked about lifelong learning. The time has come to make it reality. Learning is not only for a livelihood. It is also for life. Such learning cannot end before life does. This initiative seeks to popularize lifelong learning. We often think of money or budget when it comes to launching an initiative. A great deal can be done with existing resources. All educational institutions hold considerable intellectual assets, which are currently under-utilized. It is possible to link available resources to neglected needs, without money.

**The Practice:** This is being practiced since the inception of college. This practice took pace since last four years. Apart from these workshops and lectures our NCC, NSS and RCS students do lot of activities for the upliftment and progress of the society. Every year following activities are organized

1. Blood donation camp in coordination with Red Cross society
2. Free health checkups which includes blood tests for sickle cell anemia, HIV, malaria
3. Free dental check-up camp and treatment
4. Village adoptions where our B.Ed. students and an NGO are giving services to teach girls who are deprived of education
5. Motivational Lectures and workshops arranged to inculcate human values in students. Our staff to play a leading role in motivating and guiding students .

### **Evidence of success**

1. College has been honored with best college in social and community services by chief minister under the regime of Auropath global awards

2. The College runs in peace and harmony. All the functions and social activities are accomplished without any differences as a team work. Students participate with full enthusiasm
3. Student elections are successfully completed without any harrowing clashes.
4. The college has a good reputation in the society and staff and students are seen with good respect.
5. The college has a group of students namely “Aryan group” which works efficiently for the benefit of underprivileged. Some of the activities done by them are
6. Collection of old clothes and their distribution in the slums Blanket distribution during the winters
7. At the time of pandemic worked as corona warriors (these were those students who recovered from corona infection and rendered their help as assistants)
8. At the time of annual exam when University decided that answer copies are to submitted in respective college again these corona warriors rendered their support and collected answer copies from door to door and submitted in the college. This help saved rush in college and students were protected from being exposed.
9. Positive energy flows within the campus and can be felt between staff and the students.

## 1. Adoption of a Village
